An Employer's Guide to Preventing and Addressing Sexual Harassment in the Workplace

Sexual Harassment in the workplace is not a new phenomenon. Since the mid-1970s the law has recognized sexual harassment as an unlawful form of discrimination based on sex. We saw claims explode in the 1990s. Now, we see sex harassment claims exploding again in Hollywood, Corporate America and everywhere else. The game changer is that the rise of social media and advancements in technology have made these claims much more public.

Now is the time for Long Island employers to: develop a practical harassment prevention program; review policies to ensure they provide clear guidance for reporting; and to ensure management is properly trained to recognize any inappropriate workplace behavior. Taking a proactive approach now is critical to minimize risks and liability.

Please join us on January 24, 2018 for an in-person two-hour seminar during which Jackson Lewis attorneys will discuss the steps employers should take now to ensure they have the best practices and procedures in place to prevent and meaningfully address harassment in the workplace.

Advance reservations are **REQUIRED** as we must confirm attendance with the venue.
